Topics in American Studies: Comedy and Happiness 01:050:300:E6

Take a “serious” look at comedy this summer with the course Topics in American Studies: Comedy and Happiness. Examine the relationship between laughter and happiness through readings and class discussions in this rarely offered summer course.

The course, taught by Jonathan Appels, will examine the history of comic theater, from its roots in Ancient Greece to the stand-up routines of modern day. It will also allow students to combine their intellectual and experiential understanding of the human emotion of happiness.

The course is open to all students and fulfills an elective for the American Studies major or minor. For more information, visit summer.rutgers.edu/native-anthro.
